

## OUR METHODS

Every dog is a one-of-a-kind masterpiece, so we tailor our training to match their quirks. This way, everyone—pups and humans alike—enjoys top-notch results and a productive experience.

Our holistic approach doesn't just scratch the surface; it digs deep into even the most baffling behavior mysteries, bringing them to light and getting them sorted out.

We always kick things off with a focused 1.5 - 2 hour session, then follow up with tailored coaching sessions, treatment plans, and breed-specific strategies to keep tails wagging and issues in check.

“ *Ingo is simply amazing, I learn so much from him every time he visits and his website information is also fantastic...one of his strengths is his ability to come into a situation and diagnose it quickly providing the best solution possible. I have seen him in action changing a dog's behavior immediately! It is truly amazing!*

# Speak Their Language!

Our breed-specific training is a team effort—it's not just about your dog, it's about you, too! Great dog training is always done at both ends of the leash. Even the trickiest behaviors can be untangled, and we're here to help you figure out what your pup's really saying. Ready to speak dog? We'll teach you their language!

## Aggression Confidence & Fear

*Spoiler Alert: These problems aren't going to disappear on their own. If left unchecked, they'll just get worse. But no worries! Our proven treatment plans and counter-conditioning programs can turn things around. (Just check out Dave's 5-star review on our site! He was ready to give up after 17 bites. We turned things around!)*
